Career Objective

A proactive learner seeking opportunities to apply technical and analytical skills in Electrical and Electronics Engineering, with a strong interest in IoT, embedded systems, and software development.

Education

Silicon University, Bhubaneswar

2023 – Present

B.Tech in Electrical and Electronics Engineering

CGPA: 8.53

Key Subjects: Electrical Machines, Power Systems, Power Electronics, Control Systems, Circuit & Signals

Sant Nandlal Smriti Vidya Mandir, Ghatsila

2021 – 2023

Senior Secondary (CBSE)

90.8%

Sant Nandlal Smriti Vidya Mandir, Ghatsila

2019 – 2021

Secondary (CBSE)

93%

Skills

Languages: Python, C, C++, Java, Kotlin, JavaScript

Web: HTML, CSS

Tools/Technologies: Git, GitHub, Android Studio, MySQL, MATLAB, Linux, Microsoft Excel

Hardware/IoT: Arduino, ESP8266/ESP32, Sensors, Basic Circuit Design

Soft Skills: Communication, Leadership, Teamwork, Problem Solving

Projects

Temperature Alert System using Thermocouple

Thermocouple, Buzzer, Arduino / Analog Circuit

- Designed a temperature monitoring system for safety applications that triggers a buzzer alert when temperature exceeds a predefined threshold.
- Demonstrated real-time sensing and safety indication using thermocouple sensor.

IoT-Based Smart Examination Bell System (In Progress)

ESP8266 / ESP32, Embedded C, HTML, CSS, JavaScript, Wi-Fi

- Developed a web-based control system where a microcontroller communicates with a website to schedule and trigger bell operations.
- Enabled real-time remote control of the bell system using Wi-Fi, reducing manual intervention.

SIT Cinemax App

Kotlin, Java, Jetpack Compose

- Built an Android application for movie ticket booking with dynamic UI and real-time updates.
- Implemented user-friendly navigation and optimized app performance.

Supermarket Management System

Python

- Developed a billing and inventory system simulating real-world supermarket operations.

Personal Portfolio Website

HTML, CSS, JavaScript

- Created a responsive personal portfolio to showcase projects and technical skills.

Internships / Work Experience

Android Developer Intern — Ingenious Tech World

Jun 2025 – Aug 2025

- Developed Android UI components using Kotlin and Jetpack Compose.
- Improved application performance and user experience.

Research & Promotion Intern — EvePaper

Sep 2024 – Dec 2024

- Conducted research on digital engagement strategies.
- Contributed to increasing user interaction through outreach initiatives.

Digital Marketing Intern — Syllogistek Pvt Ltd

Jun 2024 – Jul 2024

- Performed basic SEO optimization and keyword research to improve content visibility.
- Analyzed campaign performance using metrics and contributed to engagement improvement strategies.
